

INSERTED VERSE FOR "I AM THE VERY MODEL..."

I've studied music at the university in Santa Cruz,  
And mastered music medieval, gamelan and Delta Blues!  
My college education has been excellently musical,  
With A's in every subject in my classes Santa Cruzical.  
My singing voice is highly trained in all things operatical,  
A tribute to my teachers who are often quite fanatical!  
My compositions have eschewed sharp fourth and dreaded flattened fifths...

Flatted fifths, flatted fifths.... Ahh.....  
In favor of the French, Italian and German augmented sixths!

[dance]

Chorus:

(In favor of the French, Italian and German augmented sixths  
In favor of the French, Italian and German augmented sixths  
In favor of the French, Italian and German augmented sixths  
In favor of the French, Italian and German augmented sixths

In short my knowledge practical and music theoretical,  
Avoids the likes of Cage and other moderns quite heretical.  
I've listened to my composition teachers, all quite radical,  
And never would I venture to do something quite like thatical!  
I shun the works of Schoenberg and his minions quite atonal,  
And sing Menotti, Sullivan and early polyphonical!

Chorus:

But still in matters vegetable, animal and mineral...
