or any six musicians**

# **tetherball book 2**

**Larry Polansky**

*tetherball* is a set of pieces for six musicians, each playing a different percussion instrument (or anything that makes sound).

Please see the notes for Book 1 for detailed information on performing the pieces.

*tetherball I* ("frengelmusic" 1-4) was composed by computer, in a short program written in Java to compute accelerandi at different exponential powers. It was in part inspired by some of the work of composer Mike Frengel, a graduate student thesis advisee of mine at Dartmouth College. Thanks to douglas repetto for very interesting advice on the algorithms used.

## frengelmusic 1

(powers: 2,3,4,5,6; forward)

Fast

The musical score consists of six voices, labeled I through VI, each with its own staff. Voice I starts with a single note 'C'. Voices II through VI start with a note 'C' followed by a short rest. The music is divided into measures by vertical bar lines. Measures 1 through 4 show a progression where the number of notes per measure increases exponentially. Measures 5 through 7 show a continuation of this pattern. Measure 8 concludes with a fermata over the final note. The score is set against a background of vertical grid lines.

The smallest notational unit of division for any voice is the 16th sextuplet (the last few measures in the higher parts), but the score should be treated primarily as a spatial guide for the exponential accelerandi. The notation is an approximation of the results of a mathematical process (a different exponential acceleration for each voice) to even 16th note sextuplets. No attempt at vertical simultaneity needs to be made except for where indicated: the first two beats should be in unison in parts I-V, the first accented.

**Ib**  
frengelmusic 2

(powers: 2,3,4,5,6; backward)

Fast

The musical score consists of six staves, labeled I through VI, each with a five-line staff. Staff I starts with a square symbol followed by a 'C' note, then a sixteenth-note pattern of six dots. Staff II starts with a square symbol followed by a sixteenth-note pattern of five dots. Staff III starts with a square symbol followed by a sixteenth-note pattern of four dots. Staff IV starts with a square symbol followed by a sixteenth-note pattern of three dots. Staff V starts with a square symbol followed by a sixteenth-note pattern of two dots. Staff VI starts with the instruction "even pulse" above the staff, followed by a sixteenth-note pattern of six dots. All staves end with a vertical bar line and a greater-than symbol (>) above it.

As in I, but now the last two beats of Parts I-V are in unison.
